General Guidelines

- Schools must confirm their participation by using the registration link given on the event website latest by April 30, 2019.

- Some events are based on Online Submissions. Last date of online submissions is April 30, 2019. Registration is compulsory for online submissions also. Teacher-in- charge should please check the correctness of the entries submitted. Winners and selected entries of online submissions will be updated on May 4, 2019 on our Facebook page and our event website.

- The participating teams are advised to keep visiting our event website and Facebook page for latest updates.

- Participants are requested to reach the school campus in their school uniform positively by 8:00 am.

- Accompanying teacher must cross check registration details, collect certificates, and refreshment coupons from Registration Desk.

- The host school will not be responsible for any delay in the same.

- Students should not participate in clashing events.

- Winners in each event will be awarded points on the basis of which overall winner will be decided.

- The point system in each event would be as follows : -

    1st Position   : 10 points

    2nd Position : 7 points

- There will be separate all round trophies for BOHEMIA 2.0, HASH 7.0 and Aviral 4.0.

- Decision of the judges will be final and binding.

- No late submission will be entertained.

- The host school will not compete in any of the events.

- Submitted entries will be the property of host school only.

- **Kindly note** Participants/ Winners of online submissions should not come on the event day. Their certificates and prizes will be given to their teacher incharge.

Robo Battle

"It is best to keep one's state intact to crush the enemy's state is only Second best" -Sun Tzu

Onsite

- Design a manually controlled wired ROBOT within a specified dimension as mentioned below. The robot that will demolish the other robot in minimum time or minimum parts damaged of the robot will be the winner.

  Robot Specifications:

- The maximum weight of the robot allowed is between 5 kg to 15 kg. Below and above this weight criterion, the robots will not be entertained.

- The maximum dimension of the robot must not exceed from 35cm x 30cm x 30cm (lxbxh).

- The length of the wire should be long enough so that it can cover the arena and wire should remain slack during the war.

- Readymade robots will not be entertained.

- Weapons not permitted to use: Fire, Water and Shooting

  Arena Specifications:The dimensions of arena: Inner arena:15x13ft   Outer arena:19x18ft

  Game Play: War will be held in 3 rounds. Each round will be of 5 minutes and consist of one match per round .The winners of round 1 will qualify for the next round and that of round 2 will qualify for the round 3 i.e. the final round.
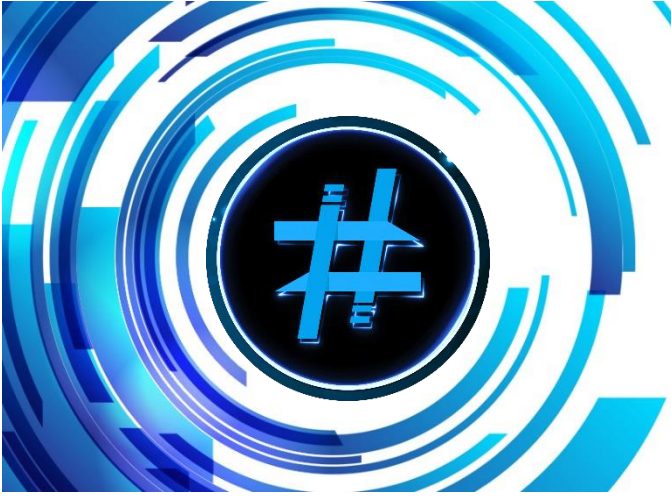

- The aim of every match is to demolish and immobilize the other robot completely.

- If after completion of the round, no robot is able to demolish the other robot, the winner will be selected after evaluating the parts damaged of both the robots.

- If the robot is thrown out of the arena, the match will stop immediately and the robot inside the arena will be considered as the winner.

- No team will get a second chance after completing the round.

- Your robot must be ready when a call is made for your team.

- Touching your robot during the war will lead to deduction of points.

  Eligibility : Open   1 School – 1 Team – 2 students

  Student Incharges: Mayank (9711574969)
   Chirag Jain
                                      Maadhav Katyal
